Purpose

Defines permitted and prohibited use of organizational systems, networks, and data by personnel.

Scope

All personnel using organizational systems, accounts, or devices.

Policy Statements

- 1. Business Purpose** — Organizational systems are provided primarily for business purposes; limited incidental personal use is permitted unless it violates other provisions of this policy.
- 2. Prohibited Activities** — Personnel may not use organizational systems for illegal activity, harassment, unauthorized data exfiltration, or circumventing security controls.
- 3. No Expectation of Privacy** — Personnel have no expectation of privacy in their use of organizational systems, which may be monitored consistent with applicable law.
- 4. Acknowledgment** — All personnel acknowledge this policy at onboarding and annually thereafter.

Roles & Responsibilities

- **Executive Management:** Approves this policy, allocates necessary resources, and accepts residual risk.
- **Security Officer:** Owns this policy, maintains it per the Review Process, and coordinates enforcement.

- **IT / System Owners:** Implement and maintain the technical controls this policy requires.
- **All Personnel:** Comply with this policy and report suspected violations to the Security Officer.

Enforcement

Violations of this policy may result in disciplinary action up to and including termination, and, where applicable, civil or criminal liability. Deviations must be requested and approved per the Exception Management Policy.

Review & Maintenance

This policy is reviewed at least annually and following any material change to the organization's risk profile, regulatory obligations, or a significant security incident, per the Review Process.
